

REMARKS

Entry and consideration of this Amendment are respectfully requested.

This Preliminary Amendment follows the filling of a continuation application to parent case 09/823,765. The parent case is abandoned. This is a second Preliminary Amendment in the case. Claims 1-5 and 7-26 have been canceled. These constitute the remainder of the original claims in the application which were subject to a first Preliminary Amendment on June 27, 2003 which cancelled claim 6. Claims 27-55 have been added. These new claims include a number of generic claims which cover all species. Additionally, the claims in their present form have been drafted to clearly distinguish over the prior art including the reference to Hon cited by the Examiner in the prosecution of the parent case. Examination and allowance of these claims is respectfully requested.

Respectfully submitted,
